Recitals

The Commonwealth is committed to improving the quality of schooling offered to secondary students and better supporting young people to make a successful transition from school to work or further education and training. To further this commitment, the Commonwealth proposes to provide funding for the implementation of the Trade Training Centres in Schools Program ('**the Program**') to improve the quality of industry recognised vocational education and training, assist in the delivery of high quality trade training in schools meeting skills needs, and support the achievement of increasing the proportion of students achieving Year 12 or an equivalent qualification to 85% by 2015 and 90% by 2020.

The Program is an important element of the Commonwealth Government's 'Education Revolution' and it is intended to make available \$2.5 billion over 10 years to enable all secondary schools to apply for funding of between \$500,000 and \$1.5 million for Trade Training Centres. Trade Training Centres are being established to help increase the proportion of students achieving Year 12 or an equivalent qualification.

An important step in increasing the proportion of students achieving Year 12 or equivalent qualification is to ensure students have access to high quality, relevant education and training opportunities that continue to engage them and encourage them to complete their studies. The Program is intended to help address national skills shortages in traditional trades and emerging industries by improving the relevance, responsiveness and capability of trade training programs in secondary schools.

The Trade Training Centres in Schools Program Guidelines ('**the Guidelines**') set out the arrangements for the administration and delivery of the Program.

It is recognised that the long term success of the Program will be built on a strong partnership between the Australian Government and State and Territory governments. As such, the spirit of this Agreement encompasses the principles and objectives outlined in the Partnership Arrangements. This includes a shared commitment to the Program and the Program Objectives, a collaborative approach to the development and implementation of the Program, and complementary roles to ensure the quality and sustainability of Trade Training Centres established under the Program.

The Australian Government and State and Territory governments have agreed to share the cost of providing Trade Training Centres in Schools Support Services in each State and Territory to assist schools in developing submissions for Program funding ('**Funding Applications**'). As a result of this commitment, We agree to provide Support Services Funding to You, subject to the terms and conditions of this Agreement.

We are required by law and policy to ensure accountability for the Funding, and You are required to be accountable for all Funding received under this Agreement.

You accept the Funding on the terms and conditions of this Agreement.
