Closing the Gap: National Partnership Agreement on Remote Indigenous Public Internet Access

INTERGOVERNMENTAL AGREEMENT

PRELIMINARIES

1. This agreement is created subject to the provisions of the *Intergovernmental Agreement on Federal Financial Relations* and should be read in conjunction with that Agreement and subsidiary schedules. In particular, the schedules include direction in respect of performance reporting and payment arrangements.
2. The Parties are committed to addressing the issue of social inclusion, including responding to Indigenous disadvantage. That commitment is embodied in the objectives and outcomes of this agreement. The Parties have also agreed other objectives and outcomes – for example, in the National Indigenous Reform Agreement – which the Parties will pursue through the broadest possible spectrum of government action. Consequently, this agreement will be implemented consistently with the objectives and outcomes of all National Agreements and National Partnerships entered into by the Parties.
3. As part of the initial response package to the recommendations of the Regional Telecommunications Independent Review Committee, the Australian Government has committed to delivering an *Indigenous Communications Program* that will improve access to telecommunications services in remote Indigenous communities.
4. This National Partnership Agreement, which contributes to the Closing the Gap targets agreed in the National Indigenous Reform Agreement, has been established to deliver improved public internet access facilities and training in computer and internet use to remote Indigenous communities.
5. Through this Agreement, the Commonwealth, States and the Northern Territory will work together with targeted remote Indigenous communities to improve Indigenous Australians' access to internet services and to provide basic skills required to utilise the resources of the internet, particularly in the areas of financial management, education, health, communication and economic, employment and business opportunities.

PART 1 – FORMALITIES

Parties to this Agreement

6. In entering this Agreement, the Commonwealth and the States and the Northern Territory recognise that they have a mutual interest in improving outcomes in the area of remote Indigenous public internet access and associated computer training, and need to work together to achieve those outcomes.

7. This Agreement will commence as soon as the Commonwealth and one other Party signs the Agreement and will expire on 30 June 2013, or earlier termination as agreed in writing by the Parties.

Delegations

8. The Minister for Broadband, Communications and the Digital Economy is authorised to agree the Implementation Plans on behalf of the Commonwealth and certify that payments may be made to the States and the Northern Territory on the achievement of performance benchmarks specified in the Implementation Plans.
9. State and Territory Premiers or Chief Ministers (or their nominees) are authorised to agree the Implementation Plan on behalf of their State or Territory.
